Service Bulletin

TCS - Titan Control Software v3.3.2

Applicability: This new release is recommended only for users of the Titan CAI Mini-Recorder

Description: Titan Control Software version 3.3.2 incorporates the following feature enhancements and bug fixes:

1. Added support for Titan CAI Mini-Recorder scan rates
2. Added 'Pascals' and 'PSI' unit options to Engineering Units
3. Modified the Engineering Units drop-down menu to display only the units that are appropriate for the chosen sensor

TCS v3.3.2 is available as an *Installer* that includes all required support files as well as an update to the embedded User Manual that provides context-sensitive help.

Update: Download TCS v3.3.2 from the Mars Labs Knowledge Base:
